Café Management System & website

Client Name : Scorpiora
Contact : 7933305
Email : scorpiora.co@gmail.com

Project Details

This project is a **Cafe Management System** combined with **website hosting security**. The platform is designed to be user-friendly, feature-rich, and easily manageable without coding.

Website Features:

- Automatic image/product **slideshow** on the homepage.
- Easy-to-display **selling products**.
- **Quick view** option for any product.
- **Add to Cart** functionality for all products.
- Multiple **payment methods** supported.
- **Booking entries** for events such as karaoke, BBQ parties, and more.
- Each booking comes with a **separate entry form**.
- Easy option to **upload payment slips**.
- **Filter and search catalog** for quick product browsing.
- Display of **live order status** for customers.
- Fully manageable website **without coding knowledge**.

Admin Panel Features:

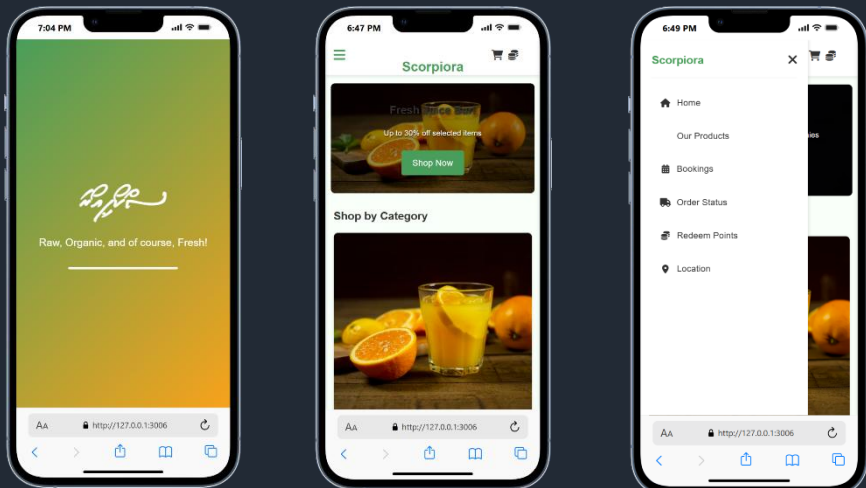

- Secure **login with username and password**.
- Ability to **grant access** to others easily.
- **Sales management** dashboard.
- **Order management** system.
- **Product management** with full data records.
- Accessible and easy to use **from anywhere**.
